**In the Middle** Martha Naomi Alt, Susan P. Choy, 2000 Prompted by widely held concerns about middle schools' academic rigor and the effectiveness of activities designed to help early adolescents develop in non-academic realms, many middle school educators have renewed efforts to develop curricula and instructional strategies that challenge students academically and expand their intellectual interests, to ensure that teachers receive appropriate training to meet student needs, and to create more nurturing and supportive environments. This report uses data from the Schools and Staffing Survey and the accompanying Teacher Follow-Up Survey to describe various aspects of middle schools, examine how they have changed over time, and compare middle schools with elementary and secondary schools. Following an introduction exploring policy issues related to middle schools, the report examines data in the areas of: (1) organization of schooling, including locations, size and other characteristics, and classroom organization and class size; (2) programs and services, including health-related services; (3) decision making and management, including site-based decision making and principals' and teachers' perceptions of their influence; (4) staffing, including qualifications, teacher workload, and staff turnover; and (5) school climate, including teacher satisfaction, and teachers' and administrators' ratings of problems at their schools. The concluding section of the report explores areas for future research. Tables and notes are appended. (Contains 66 references.) (HTH)

*Middle School Ministry* Mark Oestreicher, Scott Rubin, 2009-10-06 Many people run scared from the middle school youth room. But (thankfully!) there are people out there who are actually drawn to those young teens. Although often times they're not equipped to deal with the unique challenges that middle school ministry presents, or they're just not sure what to do when a room full of young teens (who are "part child, but not quite adult") are running around the youth room. Finally, there's a comprehensive guide to middle school ministry, from two veterans of this uncharted territory. Mark Oestreicher and Scott Rubin help youth workers understand the importance of middle school ministry, the development process for young teens and their implications for ministry, and how to best minister to these sometimes misunderstood students. They share their experiences (as middle school pastors and parents of middle schoolers), giving youth workers the encouragement, hope, and training they need to succeed in middle school ministry.
